Axel Systems Furniture

Axel is the new generation of Artopex tile system for open area layouts. Inspired and ingenious, this integrated solution creates spaces imbued with authenticity and motion.

Open Mind

The Axel tile systems was designed to easily complete all your daily tasks: Open area workstation, brainstorming space, acoustic meeting room, relaxation area, manager office, closed office and nomadic station. And more? Keep an open mind to discover all of Axel's possibilities and variations.

Code: AXEL-19-02. Axel pavilion and workstations.
Ginger Root laminate, Fog felt, Polar White enamel finish and Storm and Squall Grade A fabrics.

Collaboration

Emerging workstations are mostly focused on the goal of improving collaboration and the exchanges of ideas. Axel therefore offers innovative workstation configurations that naturally combine individual and collaborative work. The integration of pavilions defines the space simply through the creation of collaboration or multimedia areas. Let's meet up at the pavilion?

Panel
Laminate lateral panel.

Pedestal
Metal pedestal, 12" wide.

Base tile
Base tiles option, without a kickplate or open base, for a more refined finish.

Code: AXEL-19-03. Axel pavilion and workstations
Dalia and Willow Grey laminate, Shadow felt, Black enamel finish and Sand acrylic.

Finishes for slats

Slats in laminate.

Slats in felt.

Flexibility

An extended selection of materials and finishes, rich textures, and numerous design options for the panels system are all ways to communicate the distinct DNA of each space.

Axel workstations.
Sesame, Charcoal and Willow Grey laminate, glass frosted and Polar White and Black enamel finish.

... Glass privacy

Glass privacy screens frosted, inserted into the structure.

... Kickplate and open base

Open base (as illustrated above).

... Axel leg with a straight profile

Available in 34 colors.

01.

02.

03.

01. Formal workspaces can be designed identically or customized in as many ways as you wish.

02. The use of felt provides enhanced acoustic comfort, whereas the use of medium height laminate panels creates division between workstations while reducing costs.

03. Angled workstations provide more privacy and more individual work space.

Privacy

The integration of pavilions helps solve privacy issues often seen in open area layouts. With its openwork ceiling, every workstation becomes an individual ecosystem that optimizes concentration and productivity.

Axel pavilion.
Sesame laminate, Fog felt, Polar White enamel finish and Storm Grade A fabric.

Configuration
90" H. pavilion,
composed of a 66"
H. base frame and
2 – 12" stacking
frames.

Panel
Panel 36" H.

Compatibility

The Axel tile system features a complete collection of work surfaces adapted to different workstation configurations. Axel was designed so it can be combined with other Artopex collections such as Take Off, Downtown, and adjustable tables.

Shared lateral panel
Structural element for defining the interior space of pavilions arranged side-by-side.

Integrated library ...
Fits the dimensions of the Axel pavilions perfectly.

Code: AXEL-19-05. Axel pavilion executive offices.
Dalia laminate, Fog felt and Black enamel finish.

Design

Axel redefines the workspace, opening it up to new possibilities. With laminate slats and shelves, every panel becomes a unique design statement, shaping light and perspective with elegance.

Open base panel

Enhance it with horizontal slats, vertical slats and shelves.

Bistro counter

Option to design a bistro counter from 18" to 24" deep.

Axel collaborative pavilion with shelves and bistro counter.
Sheer Beauty laminate, White laminate, Dune felt and Sand enamel finish.

Axel system with horizontal slats and curved vertical slats.
Free Spirit laminate with Fossil enamel finish.

Transom tile

These tiles are available in laminate, FENIX®, felt, opaque acrylic, or fabric.

Axel collaborative pavilion with vertical slats.
Sesame laminate, Shadow felt, and Grigio Bromo enamel finish.

Light

The Axel collection incorporates fully glazed panels, bringing a new dimension of light and openness while maintaining tranquility by reducing sound and distractions.

Fully glazed panel

Frosted or clear, available in widths from 12" to 48" and heights from 30" to 90".

Sliding door on wheels

Axel collaborative pavilion.
Sheer Beauty laminate, Dune felt, Clear acrylic, and Bianco Koss enamel finish.

Modularity

The many shapes of the Axel tile system help improve work environment concepts with multiple spaces. The adaptability and versatility of Axel's different modules support the constantly changing means of working, collaborating, and generating new ideas.

The height of panels, storage options, integrated shelves, and off-module furniture are many options you can use to imagine workstations adapted to the realities of each user.

Axel open office.
Dalia and Nero Ingo laminate, Shadow felt, Black enamel finish and Dune Cape Cod fabric.

Optimize space

Integrate 120° surfaces or adjustable tables and maximize your freedom of design for Axel open areas.

Finishes

It is possible to vary the finishes of tiles within the same frame.

Stabilizing washer

Nomadic workstations

Add surface multi-outlets as well as adjustable tables to create nomadic workstations.

Axel workstations with adjustable tables.
Ginger Root and White laminate, Fog felt and Silver enamel finish.

Axel 120° workstations.
Ginger Root and White laminate, Fog felt and Polar White enamel finish.

Axel workstations.
Ginger Root and White laminate, Shadow felt and Silver enamel finish.

Acoustic

Acoustic comfort is built into Axel's design. This is why this system introduces fabric and acoustic felt tiles, as well as slated ceiling with acoustic felt. The properties of the materials and the design of pavilions both improve ambient noise management in open areas.

Furniture

Downtown lounge furniture can be used inside the pavilions.

Code: AXEL-19-07. Pavillons lounge Axel.
Ginger Root laminate, White acrylic, Fog felt and Polar White enamel finish.

Space Divider

Axel Beam is a self-supporting electrified frame that can complement furniture, attached or not. It can be placed in a straight line, at 90° or at 120° and can be used in many ways: to delimit your spaces, to divide your workstations or to carry electricity!

Axel Beam is a 30" H. panel with an opening base on which surfaces, stabilizing feet, tiles and electricity can be added.

Code: AXEL-23-13. Straight-line use of Axel Beam in a work environment with varied zones.
Free Spirit laminate, Paradise fabric (Kit pattern) and Lemon enamel finish.

Connectivity

Axel Beam defines work zones and provides a pathway to data and power: for a connected office that fits the work styles of today and tomorrow.

Code: AXEL-23-14. Axel Beam workstations with adjustable tables
Ginger Root laminate, Storm felt and Bianco Kos enamel finish.

Code: AXEL-23-15. 120° Axel Beam workstations with adjustable tables.
Free Spirit laminate, Mist felt and Source enamel finish.

Code: AXEL-23-01. Axel Beam workstations with attached surfaces.
Sesame laminate, Shadow felt and Black enamel finish.
